

Latherwash 2W Curve with Modular Wall

The Latherwash 2W Curve with Modular Wall is designed to be the load bearing wall for the cantilevered Latherwash 2W Curve washtrough and it enables full access to all plumbing work through the hinged mirror.

The wall is a floorstanding steel frame that is fixed back to the wall of the room and has all the panels fixed to it. The installation is especially quick due to all panels being clip on and pre-fitted. Available in a wide variety of laminate colours and can be matched exactly to cubicle manufacturers colours.

Codes	Length	Users	Wall Modules
1202W/C/MW	1200mm	2	1 x 1200 Module
1802W/C/MW	1800mm	3	1 x 1800 Module
2402W/C/MW	2400mm	4	2 x 1200 Modules
3002W/C/MW	3000mm	5	2 x 1500 Modules

Technical Data

Warranty	10 years from date of purchase
Solid surface	Corian
Front panel material	Solid grade laminate (wide range of colours available)

Installation Requirements
